Unit 2 · Session 4 · SLO 1 — Solved Worksheet

Name: AKARSH MURALI AKARSH MURALI | **Reg. No:** RA2511030010067

Unit – 2 : Session – 4 : SLO – 1 | Arrays

Activity (Solutions)

• 1) int[] arr = new int[3]; arr[0]=10; arr[3]=20; — ERROR: valid indices are 0..2; arr[3] throws ArrayIndexOutOfBoundsException. Fix: arr[2] = 20;

• 2) matrix[1][2] — ERROR: matrix is int[2][2], so column indices are 0..1; matrix[1][2] throws ArrayIndexOutOfBoundsException. Fix: System.out.println(matrix[1][1]); // prints 10

• 3) cube[1][1][1] = 100; print cube[1][1][1] — CORRECT: all indices 1 are valid for int[2][2][2]; output: 100.
