Unit 2 · Session 12 · SLO 1 — Solved Worksheet

Name: AKARSH MURALI AKARSH MURALI | **Reg. No:** RA2511030010067

Unit – 2 : Session – 12 : SLO – 1 | User-Defined Packages

Activity (Solution)

• // file mathutils/Adder.java: package mathutils; public class Adder { public int add(int a, int b){ return a + b; } }

• // file mathutils/Multiplier.java: package mathutils; public class Multiplier { public int multiply(int a, int b){ return a * b; } }

• // file Main.java: import mathutils.Adder; import mathutils.Multiplier;

• public class Main { public static void main(String[] args){ Adder a = new Adder(); Multiplier m = new Multiplier(); System.out.println(a.add(4, 3)); System.out.println(m.multiply(4, 3)); } }

• Output: 7 / 12
